

Wooden Chair Assembling

Put the small nuts into the holes as following. Tighten the screws but keep loose at this stage.

Install the seat piece and footrest on the right positions for kids, and tighten all screws now.

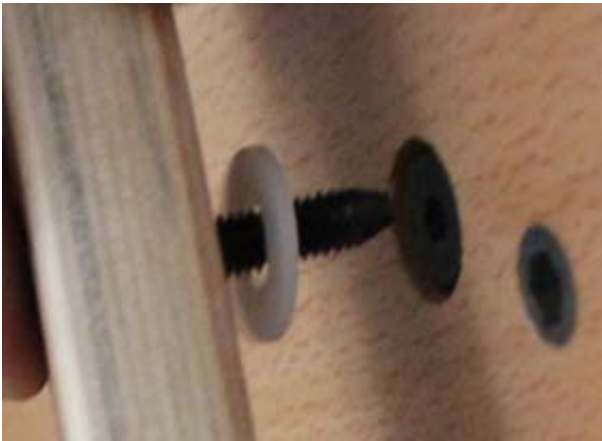

Take off the screws from the metal bars

Install the metal bars between the legs keep a little loose

Install the front tray

Install the safety strap

Install the Shoulder Harness if you bought one. Unclip the two small straps off from the harness set

Wrap the two short straps around the front tray handle as shown

Clip the harness into the short strap and adjust the length to fit the child properly

Adjust the Leg pads to keep the chair stable on the floor
